

YOUR TRUSTED ENERGY TECHNOLOGY SOLUTIONS PARTNER

CRONUS DUAL HANDLE EV CHARGER

SMARTER ENERGY. STRONGER FUTURE.

STRUCTURE APPEARANCE

Dimension (W/H/D)	W 990 X D 345 X H 2100mm
Installation method	Floor-Mounted
Wiring method	Bottom line in, bottom line out
Weight	About 205-290KG
Number of Outputs	2 Charge Points
Output type	Dual Type 2
Cable length	Standard 5m (Can Be Extended to 10m)

ELECTRIC PARAMETER

Input voltage	420Vac $\pm$ 10%
Input frequency	50/60 Hz
Output voltage	420Vac
Rated power	22kW/h to 240kW/h
Maximum Output current	32A - 300A

FEATURE

Design	Network
Network method	LAN WiFi 4G(Optional)
Communication Protocol	OCPP1.6J
LCD Display	55 Inch Digital Display Screen
Language	English
Start method	RFID/Password/ Plug & Charge/POS
RCD Type	Type A+DC 6 mA

ENVIRONMENT PARAMETER

Applicable Scene	Indoor/Outdoor
Operating temperature	-35°C~+60°C (-35°C~-20°C, with heater)
Storage temperature	-40°C~+70°C
Operating humidity	$\leq$ 95% non-condensing
Acoustic noise	<65dB
Maximum altitude	Up to 2000m
Cooling method	Air cooled
Protection level	IP55, IK10

CONFIGURATION OUTPUT OPTIONS

AC/AC
22 - 22kW/h

AC/DC
22 - 60kW/h

DC/DC
60 / 100 / 120 / 140 /
160 / 200 / 240kW/h

ADVERTISING SCREEN Generate Additional Revenue

Turn every charging session into a monetisation opportunity with the Cronus 55" Digital Advertising Display.

- Display third-party advertising and promotions
- Promote on-site retail, hospitality and services
- Generate recurring advertising revenue
- Remote content management via LAN / WiFi / 4G
- Ideal for councils, shopping centres, petrol stations and public charging networks

REVENUE OPPORTUNITY

Create an incremental revenue stream by selling advertising space to local businesses, retail partners, event promoters and community organisations while vehicles are charging.

SMART CHARGING

Reliable, high-performance EV charging infrastructure with real-time monitoring, RFID authentication, OCPP integration and smart energy management.

RFID OCPP 1.6J Remote Monitoring Smart Load Management

REVENUE OPPORTUNITY

Create an incremental revenue stream by selling advertising space to local businesses, retail partners, event promoters and community organisations while vehicles are charging.
